Raleigh, North Carolina

EDUCATION

Software Development Bootcamp, Springboard

Completion: May 2026

Professional Pilot, University of Central Missouri

Associates, Computer Science, Pratt Community College

Technical Skills

- Proficient in HTML, CSS, and JavaScript, building responsive, accessible, and user-friendly web interfaces with a focus on performance and usability.
- Experienced with front-end frameworks like React, Vue, and Bootstrap, including state management, component-based architecture, and basic API integration.
- Knowledge of version control (Git/GitHub), browser debugging tools, cross-browser compatibility, and responsive/mobile-first design principles.
- Familiar with CSS preprocessors (Sass, LESS), task/build tools (npm, Webpack, Vite), and module bundlers to streamline development workflows.
- Understanding of UI/UX principles, accessibility standards (WCAG), and SEO-friendly front-end practices.
- Exposure to testing frameworks like Jest or React Testing Library to ensure quality and maintainability.
- Comfortable collaborating in Agile/Scrum environments, participating in code reviews, and learning modern front-end technologies and best practices.

PROJECTS

- **Weather App** - Built a responsive weather application using JavaScript and the OpenWeather API to retrieve and display real-time weather data with user-friendly error handling.
- **ToDo List** - digital tool that helps users organize, prioritize, and track tasks or projects
- **Jeopardy Game** - Developed an interactive Jeopardy-style trivia game using HTML, CSS, and JavaScript with dynamic question rendering, score tracking, and responsive UI.
- **Calculator** - digital device used to perform mathematical calculations quickly and accurately. It can handle basic arithmetic such as addition, subtraction, multiplication, and division
